

Beech Hill Primary School Children's Centre

This project formed part of Newcastle City Council's Children's Centres and Extended Services Phase 2 Programme. It involved close & open co-operation to rationalise the scope of works and to develop a programme of works that would minimise disruption and disturbance to the day to day running of the existing school

Northern Construction Solutions were responsible for the internal alterations to a classroom and alterations to toilets to provide facilities in accordance with DDA provisions. External alterations to the play area, comprised; hard paving, landscaping, fencing, drainage, glazed canopy and roller shutters.

All alterations to the external areas had to comply with DDA requirements, comprising the provision of paving, ramps, walls, barrier rails, rebuilding steps and alterations to drainage.

By working closely with the Client to fully understand the project's inherent challenges Northern Construction Solutions were able to successfully handover a high quality project, on time, within budget and without any safety incidents.

Client	Newcastle City Council
Value	£160,000
Duration	14 Weeks
