

Brunswick Centre Newcastle upon Tyne

This project formed part of the City Council's Children's Centres and Extended Services Phase 3 Programme. The project involved close and open co-operation to rationalise the scope of works in order to develop a programme that satisfied the requirements of the broad range of end users, whilst complying with budgetary constraints.

Northern Construction Solutions were responsible for the construction of a single storey building to provide offices, WC's, kitchen facilities and a range of meeting rooms for community use. In addition, 2nr changing rooms and official rooms were incorporated, capable of being used/operated and serviced on an independent basis.

The project also included external works, play facilities and car parking. Upon completion, the existing sports pavilion was demolished and the surrounding area landscaped.

By working closely with the Client to fully understand the projects inherent challenges, Northern Construction Solutions were able to successfully hand over a high quality project, on time, within budget and without any safety incidents.
