

St Wilfrid's RC College South Shields

Works to St Wilfrid's RC College comprised of the external works package which included the following:

- 6500m² tarmac surfacing
- 2500m of kerbs and edgings
- 3000m² of paving and setts
- Street furniture including cycle shelters and seating
- Associated bulk earthworks including capping layer and geo-grid due to poor ground conditions

Due to the project being a refurbishment of an existing school, the works were completed in phases over a 30 week duration.

Client	Carillion Building
