

West Park Childcare Centre Hull

Following a competitive tender, Northern Construction Solutions were appointed as Preferred Contractor to develop the concept scheme and to achieve the Client's requirements within budget. On completing this phase, a Design and Build contract was awarded.

The project was to provide a child care facility for staff and college students working at the new stadium, suitable for all ages of children from babies to pre-school. Also incorporated are public toilets and office facilities for park rangers.

The building is designed to be compatible with the park land in which it is set and with the adjacent award winning Hull Stadium and Sports Arena.

As well as an aesthetically pleasing appearance, a high standard of external and internal finishes were specified.

Client	Kingston upon Hull City Council
Value	£750,000
